CANADA LTD.

... celebrating 100 Years of Continuous Mining and  
the dawn of a new and exciting project - Hoyle Deep

Porcupine Gold Mines is in the process of a Major Capital Expansion project at its Hoyle Pond Mine. The Hoyle Deep Project includes the development and construction of a new 1800m deep internal shaft (winze) as well as upgrades to the existing No. 1 Shaft. The new winze will extend to a depth of 2200m and it is expected that the project will be completed over a 4 year time period. The mine is a high grade narrow vein underground gold mine which has been operating continuously since 1985 and has produced 2.6 million ounces.

## DEVELOPMENT SUPERVISOR

### Responsibilities:

Provide direction and supervision to the mining contractor to ensure all underground development requirements associated with the Hoyle Deep Project targets are achieved safely and within budget.

- Monitor and direct all resources including contractor manpower, equipment, tools and supplies.
- Accountable to meet project development and construction targets.
- Assist in planning and design of work headings as required.
- Plan and coordinate all project work tasks to the mining contractor team leads.
- Manage compliance to all company and legislative requirements.

### Qualifications:

- Secondary School Diploma required and a Degree / Diploma in mining would be an asset
- Minimum 10 years of related underground development and production mining experience (mechanized jumbo and Alimak raising techniques)
- Minimum 5 years experience in an underground supervisory role
- Strong leadership, organizational, communication and interpersonal skills
- Computer literacy, with working knowledge of Microsoft Office

Interested applicants are invited to submit their resume by January 24, 2010.
