... celebrating 100 Years of Continuous Mining and
the dawn of a new and exciting project - Hoyle Deep

Porcupine Gold Mines is in the process of a Major Capital Expansion project at its Hoyle Pond Mine. The Hoyle Deep Project includes the development and construction of a new 1800m deep internal shaft (winze) as well as upgrades to the existing No. 1 Shaft. The new winze will extend to a depth of 2200m and it is expected that the project will be completed over a 4 year time period. The mine is a high grade narrow vein underground gold mine which has been operating continuously since 1985 and has produced 2.6 million ounces.
